

Project Closure Report Connect

Gulf Intracoastal Waterway West Closure Complex

capacity. All project construction was completed in 2012. Final approval of the Individual Environmental Report #12 for the GIWW West Closure Complex was

The Gulf Intracoastal Waterway West Closure Complex is a part of the New Orleans Drainage System; it consists of a navigable floodgate, a pumping station, flood walls, sluice gates, foreshore protection, and an earthen levee. The complex was designed to reduce risk for residences and businesses in the project area from a storm surge associated with a tropical event, with an intensity that has a one percent chance of occurring in any given year. This project was operated for the first time on August 29, 2012, in response to Hurricane Isaac.

14th Street Tunnel shutdown

(also referred to as the L Project, the L train shutdown, or the Canarsie Tunnel reconstruction) was the partial closure and reconstruction of the New

The 14th Street Tunnel shutdown (also referred to as the L Project, the L train shutdown, or the Canarsie Tunnel reconstruction) was the partial closure and reconstruction of the New York City Subway's 14th Street Tunnel that took place from April 2019 to April 2020. The tunnel carries the BMT Canarsie Line (serving the L train) under the East River in New York City, connecting the boroughs of Brooklyn and Manhattan, and is used by an average of 225,000 passengers per weekday. A key segment of the 14th Street Tunnel, between the Bedford Avenue station in Brooklyn and the First Avenue station in Manhattan, would be partially closed for 15 to 20 months to allow for necessary and extensive repairs to the underwater tubes after it was flooded and severely damaged during Hurricane Sandy in 2012...

Red Blue Connector

Project Closure Report Connect

Red Blue Connector is a proposed construction project to extend the Massachusetts Bay Transportation Authority (MBTA) Blue Line west to connect to the Red

The Red Blue Connector is a proposed construction project to extend the Massachusetts Bay Transportation Authority (MBTA) Blue Line west to connect to the Red Line, which are the only two MBTA subway lines that lack a direct connection. It would extend the Blue Line 0.4 mi (0.64 km) west beyond the current terminus at Bowdoin station to a new terminus at Charles/MGH station, eliminating the former as a result. The project is suggested to relieve pressure on Downtown Boston stations, overcrowding on the Green Line (which is currently the most convenient way to transfer between the two lines), and to connect communities unlinked by public transit, including Cambridge and East Boston.

An underground connection between the Blue Line and the Red Line has been considered since the 1920s. However...

Kalpasar Project

reconnaissance report was prepared for the dam across the Gulf of Khambhat. The report concluded that, assuming sound foundation conditions, the closure of the

The Kalpasar Project or the Gulf of Khambhat Development Project envisages building a 30 km dam across the Gulf of Khambhat in India for establishing a huge fresh water coastal reservoir for irrigation, drinking and industrial purposes. The project with 30 km sea dam will have the capacity to store 10 billion cubic meters fresh water, equating to 25% of Gujarat's average annual rainwater flow, from the rivers like Narmada, Mahi, Dhadhar, Sabarmati, Limbdi-Bhagovo, and two other minor rivers. A 10 lane road link will also be set up over the dam, greatly reducing the distance between Saurashtra and South Gujarat. The project, which will create world's largest freshwater lake in marine environment, will cost INR90,000 crore or US\$12.75 billion (2015-16 estimates with 8% annual inflation) excluding...

Project Closure Report Connect

Massachusetts Department of Transportation

The Blue Line is a rapid transit line in the Greater Boston metropolitan area, one of four rapid transit lines operated by the Massachusetts Bay Transportation Authority (MBTA). It runs from Bowdoin station in downtown Boston under Boston Harbor to East Boston and Revere on the inner North Shore, where it terminates at Wonderland. The stop at Airport Station, by way of a free shuttle bus, is one of two rapid transit connections to Logan International Airport. In 1967, during a systemwide rebranding, the line was assigned the blue color because it passes under the Boston Harbor. With an end-to-end travel time of less than twenty minutes, the Blue Line is the shortest of Boston's heavy-rail lines and the only line to have both third rail and overhead catenary sections.

Ontario Highway 418

7 mi) long, travelling through the Regional Municipality of Durham to connect Highway 401 with the eastern extension of Highway 407. The freeway is located

King's Highway 418, or simply Highway 418, is a controlled-access highway and former tolled highway in the Canadian province of Ontario. The 400-series highway is 9.2 km (5.7 mi) long, travelling through the Regional Municipality of Durham to connect Highway 401 with the eastern extension of Highway 407. The freeway is located entirely within the Municipality of Clarington near Durham Regional Road 34 (Courtice Road).

The route number was confirmed by the Ministry of Transportation of Ontario (MTO) alongside Highway 412 on February 6, 2015. Prior to this, it was known as the East Durham Link. Highway 418 opened on December 9, 2019, alongside the extension of Highway 407 to Highways 35 and 115. On April 5, 2022, Highway 418 became toll-free.

Project Zero is a team of security analysts employed by Google tasked with finding zero-day vulnerabilities. It was announced on 15 July 2014.

Washington Bridge (Providence, Rhode Island)

195, US Route 6, US Route 44, and U.S. Route 1A over the Seekonk River connecting India Point in Providence to Watchemoket Square in East Providence, Rhode

The Washington Bridge is a series of three bridges carrying Interstate 195, US Route 6, US Route 44, and U.S. Route 1A over the Seekonk River connecting India Point in Providence to Watchemoket Square in East Providence, Rhode Island. The historic portion of the bridge dating to 1930 serves as the pedestrian crossing, and bike link to the East Bay Bike Path. The pedestrian span is also a part of the Washington-Rochambeau National Historic Trail. On December 11, 2023, the westbound bridge was abruptly closed due to critical safety issues. It will require complete replacement before reopening, which is expected in November, 2028. In the meantime, westbound traffic shares the eastbound span.

Thameslink Programme

dual-voltage capability, so that First Capital Connect then had all 86 Class 319 units. Once project funding was guaranteed, 23 Class 377s were

The Thameslink Programme, originally Thameslink 2000, was a £6 billion project in south-east England to upgrade and expand the Thameslink rail network to provide new and longer trains between a wider range of stations to the north and to the south of London. The development facilitated new cross-London journeys, which means that passengers no longer have to change trains in London. Work included platform lengthening, station remodelling, new railway infrastructure, and new rolling stock. The project was originally proposed in 1991 following the successful introduction of the initial Thameslink service in 1988. After many delays, planning permission was granted in 2006 and funding was approved in October 2007. Work started in 2009 and was completed on 18 September 2020, although trains over...

Mueller report

formal closure of the Office of the Special Counsel and his resignation from the Justice Department on May 29, 2019, Mueller said "the report is my testimony"

Report On The Investigation Into Russian Interference In The 2016 Presidential Election, more commonly known as the Mueller report, is the official report documenting the findings and conclusions of former Special Counsel Robert Mueller's investigation into Russian efforts to interfere in the 2016 United States presidential election, allegations of conspiracy or coordination between Donald Trump's presidential campaign and Russia, and allegations of obstruction of justice. The report was submitted to Attorney General William Barr on March 22, 2019, and a redacted version of the 448-page report was publicly released by the Department of Justice (DOJ) on April 18, 2019. It is divided into two volumes. The redactions from the report and its supporting material were placed under a temporary "protective...
