You may even find an online course that enables you to learn in the comfort of your own home. As a beginner, the kind of course you should be looking for is one, which covers the basics. The kinds of skills this course should be teaching you relate to soldering cutting, shaping and texturing the silver plus polishing it. Also look for courses that teach you skills such as making jump rings, hooks and clasps for earrings. Finally what you should be looking for in a course is one that'll allow you to make a number of different pieces of jewelry from silver. The actual process of turning a piece of silver into a piece of jewelry is not only very technical, but also allows your artistic side to flourish.
