Mini Hatch

Mini (stylised as MINI) supermini range, marketed under various names such as Mini Cooper, Mini Hatch, Mini Hardtop, Mini One, and Mini John Cooper Works

The Mini (stylised as MINI) supermini range, marketed under various names such as Mini Cooper, Mini Hatch, Mini Hardtop, Mini One, and Mini John Cooper Works, are a family of retro-styled three-door hatchback, two-door convertible, and five-door hatchback (since 2014). The range was introduced in July 2001, following the acquisition of the Mini brand by German automaker BMW.

BMW first unveiled the Mini hatch concept car at the 1997 Frankfurt International Motor Show, when the Mini brand was still part of the BMW-owned Rover Group. Developed as a successor to the original Mini, the styling of the concept car was well received by the public and further developed. The new Mini range was launched by BMW in 2001, one year after their sale of the Rover Group in March 2000, and the classic Mini's...

Mini

Portugal market only), Mini Rio, Mini Mayfair, Mini Park Lane, Mini Cooper RSP, Mini Flame, Mini Red Hot, Mini Jet Black, Mini Racing, Mini Thirty (30) which

The Mini is a very small two-door, four-seat car, produced for four decades over a single generation, with many names and variants, by the British Motor Corporation (BMC) and its successors British Leyland and the Rover Group, and finally (briefly) under BMW ownership. Minis were built as fastbacks, estates, convertibles, and various other body styles. Minus a brief 1990s hiatus, from 1959 into 2000, an estimated 5.38 million of all variations combined were built, and the Mini's engines also powered another 2 million Mini Metros, though the Mini eventually outlasted its successor.

Initially, the Mini was marketed under the Austin and Morris names, as the Austin Seven and Morris Mini-Minor; the Austin Seven was renamed Austin Mini in 1962 and Mini became a marque in its own right in 1969. Retrospectively...

Mini (stylised as MINI) is a British automotive brand founded in Oxford in 1969, marketed by German multinational automotive company BMW since 2000, and used by them for a range of small cars assembled in the United Kingdom, Austria, Netherlands (until 16 February 2024), China and Germany. The current Mini range includes the Cooper Hardtop/Hatch/Convertible (three and five-door hatchback), Aceman and Countryman (five-door crossovers). The word Mini has been used in car model names since 1959, and in 1969 it became a brand in its own right when the name "Mini" replaced the separate "Austin Mini" and "Morris Mini" car model names. BMW acquired the brand in 1994 when it bought Rover Group (formerly British Leyland), which owned Mini, among other brands.

The original Mini was a line of British...

Mini Moke

with rollover protection and used the Mini Cooper S 1275 cc engine. Despite the lack of success in selling the Mini Moke to the British Armed Forces, an

The Mini Moke is a small, front-wheel-drive utility and recreational convertible, conceived and manufactured as a lightweight military vehicle by British Motor Corporation (BMC), and subsequently marketed for civilian use under the Austin, Morris, Leyland, and Moke brands. The name "Mini Moke" combines mini with moke, an archaic term for a mule. The Moke is known for its simple, straightforward, doorless design and for its adaptability.

BMC's Cowley plant started building Mokes in January 1964, with 14,518 produced in the UK between 1964 and 1968; 26,000 were manufactured in Australia between 1966 and 1981; and 10,000 in Portugal between 1980 and 1993 when, after a nearly 30-year run, production ended.

In 2013, in a joint venture with Jaguar Land Rover, Chinese automaker Chery Automobile started...

Prince engine

Prince is the codename for a family of straight-four 16-valve all-aluminium gasoline engines with variable valve lift and variable valve timing developed by BMW and PSA Peugeot Citroën. It is a compact engine family of 1.4-1.6 L in displacement and includes most modern features such as gasoline direct injection and turbocharger.

The BMW versions of the Prince engine are known as the N13 and the Mini versions are N12 (Double VANOS, Valvetronic 88 kW (118 hp) at 6000 rpm) in 2007-2010 Cooper; N14 (Single VANOS, Turbocharged 128 kW (171 hp) at 5500 rpm) in 2007-2010 Cooper-S; N14 (Single VANOS, Turbocharged 155 kW (208 hp) at 6000 rpm) in 2009-2013 JCW Cooper; N16 (Double VANOS, Valvetronic 90 kW (121 hp) at 6000 rpm) in 2011-2013 Cooper and N18 (Double VANOS, Valvetronic Turbocharged 135 kW...

Cooper's hawk (Astur cooperii) is a medium-sized hawk native to the North American continent and found from southern Canada to Mexico. This species was formerly placed in the genus Accipiter. As in many birds of prey, the male is smaller than the female. The birds found east of the Mississippi River tend to be larger on average than the birds found to the west. It is easily confused with the smaller but similar sharp-shinned hawk. (Accipiter striatus)

The species was named in 1828 by Charles Lucien Bonaparte in honor of his friend and fellow ornithologist, William Cooper. Other common names for Cooper's hawk include: big blue darter, chicken hawk, flying cross, hen hawk, quail hawk, striker, and swift hawk. Many of the names applied to Cooper's hawks refer to their ability to hunt large and...

Eliza Cooper Blaker (March 5, 1854 - December 4, 1926) was an American educator who headed

the free kindergarten movement in Indianapolis from 1882 to 1926 as the first superintendent of schools for the Indianapolis Free Kindergarten and Children's Aid Society. She also established the Indianapolis Kindergarten and Primary Normal Training School at her Indianapolis home in 1882. Renamed the Teachers College of Indianapolis in 1905, she served as its president until her death in 1926. Four years later it became part of the education department at Butler University.

Honda S800

with predictable handling and a firm ride. It was also cheaper than the Mini Cooper and Triumph Spitfire, in Britain. In February 1968, the S800M (aka S800MK2)

The S800 is a sports car from Honda. Introduced at the 1965 Tokyo Motor Show, the S800 replaced the successful Honda S600 as the company's image car. With a redline of 8,500 rpm, it is one of the highest-revving sports cars produced for street use. The S800 competed with the Austin-Healey Sprite, MG Midget, Triumph Spitfire, Datsun Fairlady, and Fiat 850 Spider.

via 23rd Street, to Avenue C and 20th Street in Stuyvesant Town-Peter Cooper Village. The route was originally the Twenty-third Street Railway, a street

The 23rd Street Crosstown is a surface transit line on 23rd Street in Manhattan, New York City. It currently hosts the M23 SBS bus route of the Metropolitan Transportation Authority (MTA)'s Regional Bus Operations. The M23 runs between Chelsea Piers, along the West Side Highway near 22nd Street, via 23rd Street, to Avenue C and 20th Street in Stuyvesant Town-Peter Cooper Village.

The route was originally the Twenty-third Street Railway, a street railway that was originally operated as horse cars and later electric traction. The company was chartered on January 29, 1872. The Twenty-third Street Railway was leased by numerous larger companies in the late 19th and early 20th century. The trolley line was replaced with bus service in 1936 and was originally numbered the M18-15 and the M26 before...
