

Session Cases 1995

Justiciary Cases

This report discusses some of the major challenges for implementing regulatory reform, from a political perspective. It draws on the experience and evidence from OECD countries when building the case through results and developing strategies for ...

Parliamentary Commissioner for Administration Reports, 5th Report Session 1995-96

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Criminal Procedure (Scotland) Act 1995

Filling a need for a case and materials book on constitutional and administrative law, this textbook reflects the latest thinking particularly in relation to the European Communities.

Cases adjudged

Fourteen years since its establishment, the work of the African Commission on Human and Peoples' Rights has not received the attention that should have been paid to its important contributions towards the promotion and protection of human rights in Africa. The aim of this publication is to provide not only the basic documents, but also the less well known material related to the jurisprudence emanating from the consideration of communications. This volume therefore includes, amongst other material, the twelve activity reports adopted by the Commission, resolutions, and final communiqués from the sessions. This is the first attempt to reproduce comprehensively the many documents of the Commission adopted since its inception in 1987. It will be an essential reference for academics, students, and practitioners. The publication is produced in collaboration with the African Society for International and Comparative Law, the Centre for Human Rights at the University of Pretoria and Interights in London.

Implementing Regulatory Reform: Building the Case Through Results Proceedings of the Meeting of the Group on Regulatory Policy, OECD, Paris, December 2007

This title offers concise, critical and stimulating accounts of the main issues and developments in topics of current and ongoing importance in organizational behaviour. This edition focuses on employee versus owner issues in organizational behaviour.

Congressional Record

Information Systems Research: Relevant Theory and Informed Practice comprises the edited proceedings of the WG8.2 conference, "Relevant Theory and Informed Practice: Looking Forward from a 20-Year Perspective on IS Research," which was sponsored by IFIP and held in Manchester, England, in July 2004. The conference attracted a record number of high-quality manuscripts, all of which were subjected to a rigorous reviewing process in which four to eight track chairs, associate editors, and reviewers thoughtfully scrutinized papers by the highly regarded as well as the newcomers. No person or idea was considered sacrosanct and no paper made it through this process unscathed. All authors were asked to revise the accepted papers, some more than once; thus, good papers got better. With only 29 percent of the papers accepted, these proceedings are significantly more selective than is typical of many conference proceedings. This volume is organized in 7 sections, with 33 full research papers providing panoramic views and

reflections on the Information Systems (IS) discipline followed by papers featuring critical interpretive studies, action research, theoretical perspectives on IS research, and the methods and politics of IS development. Also included are 6 panel descriptions and a new category of \"bright idea\" position papers, 11 in all, wherein main points are summarized in a pithy and provocative fashion.

Model Rules of Professional Conduct

This handbook shows the wide perspective cognitive-behavioural treatment can offer to health professionals, the vast majority of whom now recognize that cognitive behavioural procedures are very useful in treating many 'mental' disorders, even if certain disciplines continue to favour other kinds of treatment. This book offers a wide range of structured programmes for the treatment of various psychological/psychiatric disorders as classified by the DSM-IV. The layout will be familiar to the majority of health professionals in the description of mental disorders and their later treatment. It is divided into seven sections, covering anxiety disorders, sexual disorders, dissociative, somatoform, impulse control disorders, emotional disorders and psychotic and organic disorders. Throughout the twenty-three chapters, this book offers the health professional a structured guide with which to start tackling a whole series of 'mental' disorders and offers pointers as to where to find more detailed information. The programmes outlined should, it is hoped, prove more effective than previous approaches with lower economic costs and time investment for the patient and therapist.

Cases and Materials on Constitutional and Administrative Law

Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020.

Committee on Criminal Law

From the ill-fated dot-com bubble to unprecedented merger and acquisition activity to scandal, greed, and, ultimately, recession --

we've learned that widespread and difficult change is no longer the exception. By outlining the process organizations have used to achieve transformational goals and by identifying where and how even top performers derail during the change process, Kotter provides a practical resource for leaders and managers charged with making change initiatives work.

Indictable offences, special and petty session matters

Report of twenty-three studies looking at the UK, The Netherlands, Iceland, Canada, New Zealand, United States, Australia, Alaska and Chile.

Cases Decided in the Court of Session, Teind Court, Court of Exchequer and House of Lords

First published in 2003. Routledge is an imprint of Taylor & Francis, an informa company.

Reports from Commissioners

At present there is no clear model under international law with which to determine compensation for environmental damage. After showing that no existing standard of compensation defined by the theory and practice of international law is adequate to cover all cases involving environmental damages - and that such a broad standard or set of standards may in fact be ultimately unachievable - the author of this important book develops a 'fair compensation' regime from an analysis of existing international dispute adjudication mechanisms, and presents this model as the best possible current approach to the conciliation of international responsibility and environmental interests.

The Proceedings of 1995 Annual Meeting, Research Committee on Sociology of Law, International Sociological Association: Papers, section meetings

Teaching epidemiology requires skill and knowledge, combined with a clear teaching strategy and good pedagogic skills. The general advice is simple: if you are not an expert on a topic, try to enrich your background knowledge before you start teaching. Teaching Epidemiology, third edition helps you to do this, and by providing the world-expert teacher's advice on how best to structure teaching gives a unique insight in to what has worked in their hands. The book will help you plan your own tailored teaching program. The book is a guide to new teachers in the field at two levels; those teaching basic courses for undergraduates, and those teaching more advanced courses for students at postgraduate level. Each chapter provides key concepts and a list of key references. Subject specific methodology and disease specific issues (from cancer to genetic epidemiology) are dealt with in details. There is also a focused chapter on the principles and practice of computer-assisted learning.
