The Story of the Bronx from the purchase made by the dutch from the Indians in 1639 to the present day. By Stephen Jenkins — Member of Westchester County Historical Society. Author of \"The Greatest Street in the World-Broadway\".

6502 User's Manual

Apple's iWork is more versatile than ever now that there are versions for Mac, iOS, and even iCloud. The only thing iWork doesn't include is its own how-to guide. That's where this friendly, jargon-free Missing Manual comes in. With complete instructions and helpful examples, you'll quickly learn how to create stunning documents, slideshows, and spreadsheets with iWork's Pages, Keynote, and Numbers. The important stuff you need to know: Create elegant files in minutes. Save tons of time by using iWork's collection of prebuilt templates and themes. Craft a variety of documents. Use Pages to design attractive newsletters, catalogs, brochures, flyers, and posters. Build eye-popping presentations. Turn Keynote's themes and easy-to-use cinematic effects into beautiful custom slideshows. Organize and clearly convey information. Jazz up your Numbers spreadsheets with charts, images, and videos. Always have your work on hand. Store your files in iCloud and have them sync automatically to your Mac and iOS devices. Work anywhere, any time. Use the web-based iWork for iCloud to create projects on any computer—even a PC. Versions covered: This edition covers Pages for Mac 5.1, Keynote for Mac 6.1, Numbers for Mac 3.1, version 2.1 of each iOS app, and iWork for iCloud.

80C186EB/80C188EB User's Manual

Explains how to use the iPhone and learn all the options of its additional

capabilities which include iCloud, Siri, FaceTime, the App Store, iTunes, and settings.

IWork: The Missing Manual

Millions of people all over the world are iPhone users! Simply because iPhone cell phone is a hugely popular smartphone that offers many advances and convenient features, including a camera like no other, Siri, turn-by-turn driving directions, a calendar, and a lot more. But if you're acquiring the iPhone 7 and iPhone 7 Plus, for the first time, or you probably need more information on how to use your device optimally, and that is why this book is your best companion. The easy-to-follow steps in this book would help you manage, personalize, and communicate better using your new iPhone 7, and iPhone 7 Plus cell phone optimally. You would discover how to do everything from the set-up process to customizing the iPhone, as well as amazing Tips & tricks you never would find in the original iPhone manual. There's no better resource around for dummies and seniors such as kids, teens, adolescents, adults, like this guide.

iPhone

Demonstrates the operating system's basic features, including Internet access, iCloud, file management, configuring the desktop, networking, installing peripherals, and working with applications.

iPhone 7 Manual

This volume covers every step of iMovie video production, from choosing and using a digital camcorder to burning the finished work onto CDs. Apple IIE Technical Reference Manual

The latest versions of iMovie HD and iDVD 5 are, by far, the most robust moviemaking applications available to consumers today. But whether you're a professional or an amateur moviemaker eager to take advantage of the full capabilities of these applications, don't count on Apple documentation to make the cut. You need iMovie HD & iDVD 5: The Missing Manual iMovie HD & iDVD 5: The Missing Manual Capturing quality footage (including tips on composition, lighting, and even special-event filming) Building your movie track, incorporating transitions and special effects, and adding narration, music, and sound Working with picture files and QuickTime movies Reaching your intended audience by

exporting to tape, transferring iMovie to QuickTime, burning QuickTime-Movie CDs, and putting movies on the Web (and even on your cell phone!) Using iDVD 5 to stylize and burn your DVD creation iMovie HD & iDVD 5: The Missing Manual.

Mac OS X Lion

John Armstrong's 2000-line poem *The Art of Preserving Health* was among the most popular works of eighteenth-century literature and medicine. It was among the first to popularize Scottish medical ideas concerning emotional and anatomical sensibility to British readers, doing so through the then-fashionable georgic style. Within three years of its publication in 1744, it was in its third edition, and by 1795 it commanded fourteen editions printed in London, Edinburgh, Dublin, and Benjamin Franklin's shop in Philadelphia. Maintaining its place amongst more famous works of the Enlightenment, this poem was read well into the nineteenth century, remaining in print in English, French, and Italian. It remained a tribute to sustained interest in eighteenth-century sensibility, long after its medical advice had become obsolete and the nervous complaints it depicted became unfashionable. Adam Budd's critical edition includes a comprehensive biographical and textual introduction, and explanatory notes highlighting the contemporary significance of Armstrong's classical, medical, and social references. Included in his introduction are discussions of Armstrong's innovative medical training in charity hospitals and his close associations with the poet James Thomson and the bookseller Andrew Millar, evidence for the poem's wide appeal, and a compelling argument for the poem's anticipation of sensibility as a dominant literary mode. Budd also offers background on the 'new physiology' taught at Edinburgh, as well as an explanation for why a Scottish-trained physician newly arrived in London was forced to write poetry to supplement his medical income. This edition also includes annotated excerpts from the key literary and medical works of the period, including poetry, medical prose, and georgic theory. Readers will come away convinced of the poem's significance as a uniquely engaging perspective on the place of poetry, medicine, the body, and the book trade in the literary history of eighteenth-century sensibility.

iMovie '11 & iDVD: The Missing Manual

Bursting with new features, Apple's iMovie '09 is vastly more usable and complete than iMovie '08 -- amazing right out of the box. But the box doesn't include a good user's guide, so learning these applications is another matter. iMovie '09 and iDVD: The Missing Manual gets you up to speed on everything you need to turn raw digital footage into highly creative video projects. You get crystal-clear, jargon-free explanations of iMovie's new video effects, slow & fast motion, advanced drag & drop, video stabilization, and more. Author and New York Times tech columnist David Pogue uses an objective lens to scrutinize every step of process, including how to: Organize your videos just like your photos, and precisely edit with ease Work on multiple iMovie projects at once and drag & drop clips among them Integrate with other iLife programs to use songs, photos, and an original sound track Output your creation to a blog, its own web page, or as a video podcast with iWeb Understand basic film techniques to improve the quality of the video you bring to iMovie From choosing and using a digital camcorder to

burning the finished work onto DVDs, posting it online, or creating versions for iPod and iPhone, iMovie '09 & iDVD: The Missing Manual helps you zoom right in on the details.

IPHONE 12 USER GUIDE

IAPX 86, 88, 186, and 188 User's Manual

When the Spanish began colonizing the Americas in the late fifteenth and sixteenth centuries, they brought with them the plants and foods of their homeland—wheat, melons, grapes, vegetables, and every kind of Mediterranean fruit. Missionaries and colonists introduced these plants to the native peoples of Mexico and the American Southwest, where they became staple crops alongside the corn, beans, and squash that had traditionally sustained the original Americans. This intermingling of Old and New World plants and foods was one of

the most significant fusions in the history of international cuisine and gave rise to many of the foods that we so enjoy today. Gardens of New Spain tells the fascinating story of the diffusion of plants, gardens, agriculture, and cuisine from late medieval Spain to the colonial frontier of Hispanic America. Beginning in the Old World, William Dunmire describes how Spain came to adopt plants and their foods from the Fertile Crescent, Asia, and Africa. Crossing the Atlantic, he first examines the agricultural scene of Pre-Columbian Mexico and the Southwest. Then he traces the spread of plants and foods introduced from the Mediterranean to Spain's settlements in Mexico, New Mexico, Arizona, Texas, and California. In lively prose, Dunmire tells stories of the settlers, missionaries, and natives who blended their growing and eating practices into regional plantways and cuisines that live on today in every corner of America.

Explains how to use the Macintosh video production programs to capture and edit digital videos, apply effects, create DVD menus, and burn DVDs.

iPhone 8 User Manual

Introduced by Apple in January 2005, iWork '05 is an innovative new suite of

document and presentation software that's the same caliber as Apple's groundbreaking digital media applications and that's wholly dedicated to what Mac users like you care about most: artistry and creativity. iWork '05 isn't about \"office productivity\"--it's about creating slick and stylish documents and cinema-quality digital presentations that say precisely what you want them to say. While iWork '05 helps you create stunning documents and presentations, the suite doesn't come with any in-depth documentation of its own. That's where iWork '05: The Missing Manual comes in. The book that should have been in the box, it gives you everything you need to master iWork '05. Seamlessly integrated with the wildly popular iLife '05 and designed to take advantage of the advanced typography and graphics engine of Mac OS X, iWork is actually two separate programs: Pages and Keynote 2. Pages is a brand-new, streamlined word processor and page layout program that allows nonprofessionals to quickly and painlessly produce gorgeous brochures, newsletters, letters, invitations, product data sheets, and more. You can start documents from scratch or use one of the 40 professionally designed templates as a starting point. Keynote 2 is a significant upgrade to Keynote, Apple's PowerPoint-like presentation software that allows you to build unique presentations, demonstrations, storyboard animations, interactive slideshows, and more. Like every Missing Manual, this one is refreshingly entertaining and scrupulously detailed. iWork '05: The Missing Manual gives you all the essentials of Pages and Keynote 2, including an objective look at each program's capabilities, its advantages over similar programs, and its limitations. The book delivers countless goodies that you won't find anywhere else: undocumented tips, tricks, and secrets for getting the very best results from both exciting new applications. With the iWork '05 suite and iWork '05: The Missing Manual, you are totally equipped to give your work the style it deserves.
