

Mgb Workshop Manual

MGA & MGB Workshop Manual & Owners Handbook

A reproduction of the Floyd Clymer Workshop Manual and possibly the most comprehensive manual ever published for this series of MG's. It includes complete technical data, service and maintenance information and detailed instructions for the repair and overhaul of the major mechanical and electrical components for the 1500cc, 1600cc and 1800cc MGA and MGB series of automobiles including the MGA 1500 (1955-59), MGA 1600 MKI (1959-61), MGA 1600 MKII (1961-62), MGB MKI (1962-67) & MGB MKII (1967-70). As many of the same mechanical components are utilized in the final series of MGB's (1970-80) much of this manual is applicable to the Series III cars also. There is adequate detailed text and diagrams to assist in major refurbishing such as an engine rebuild or even a complete mechanical renovation, making it an invaluable resource for collectors and restorers of these classic automobiles. This profusely illustrated manual includes separate sections dealing with the repair and overhaul procedures for the engine, cooling system, carburetion, clutch, transmission, brakes and wheels, hubs and drums, rear axle, drive shaft, front suspension, steering gear, a detailed electrical service section and emission control section plus a complete reproduction of the MGB & MGB GT Owners Handbook. This is a - must have - reference for any MG enthusiast and would certainly assist in helping any potential purchaser better understand the inner workings prior to purchasing one of these classic automobiles. Out-of-print and unavailable for many years, this book is highly sought after on the secondary market and we are pleased to be able to offer this reproduction as a service to all MG enthusiasts worldwide.

MGB

MG was a home-grown concept that became an international success, bringing the small market town of Abingdon onto the global map. MG - Made in Abingdon recounts the inside story of the famous factory, recognising that the most important aspect of MG's success was its team – the tea-boys and girls, the shop floor workers, the engineers and racers, the apprentices and management. From memories of the production line to recollections of racing incidents, the untold story of MG from the men and women who worked in the Abingdon factory is revealed for the first time in a book that is both nostalgic and historically important. "This is social history at its best." (Classic Car) "The real treasure is without a doubt the stories ... a valuable piece of social history." (Classic and Sports Car) "Opens a window on aspects of MG life that rarely get an airing in public." (MG Enthusiast)

MGB, 1969-71 Autobook

General data, controls, instruments, maintenance, etc.

MGB 1969-73 Autobook

This book is essential reading for every MGB enthusiast. The mechanical aspects and the restoration of the vehicle have been written about in numerous publications but the so often maligned electrical systems has never before been comprehensively covered. For those new to vehicle electrical systems the book provides a simple primer using mechanical analogies. Each system in the car has its own chapter, with simple and uncluttered circuit diagrams in which each wire can be seen in its real colours. More than a how-to-do guide, the book also explains the “why” of each system and procedure, aiding diagnostics when things don’t go quite as they should. The many fault finding guides help pin those elusive problems down. For those wishing to improve the car for reliability and safety.

MGB Restoration Manual

The MGB, the epitome of the British sports car, has attracted a huge following because of its blend of good looks, practicality and decent road manner. During its 18-year production life, from 1962 to 1980, it underwent a bewildering number of changes to specification and equipment. An owner or restorer of an MGB wants to know where their car came in the cycle of production and thus what it should look like and what parts should be fitted, from tail lamps to door handles. Answers to all these questions can only be found in this book, with detailed color photography of the complete range of the cars.

MGA, MGB 1955-68 Autobook

During the Second World War, the Royal Navy's flotillas of small, fast and powerfully armed motor gun boats (MGBs) were looked upon as the 'Spitfires of the Seas'. Operating from their harbour bases around the south and east coasts of England, RN Coastal Forces crews would set out under cover of darkness to look for trouble with German shipping in the Channel and the North Sea. The vicious close-quarter skirmishes that ensued were every bit as deadly as the aerial dogfights acted out at 30,000 ft by their RAF Spitfire contemporaries. Written by the curator of MGB 81, with contributions from other specialists involved with the boat, the Royal Navy Motor Gun Boat Owners' Workshop Manual is published in association with the Portsmouth Naval Base Property Trust and fully illustrated with archive photos, technical drawings and detailed photography of MGB 81.
